PARTYLINE

To those folks who received the “Partyline Missing Info” email, please continue to respond. To those folks who have already responded. Our heartfelt THANKS!

FYI. We here at Partyline central usually just copy and paste whatever message you want to go out on the next Partyline email. On occasion, we'll fix spelling and grammar so that it fits in a text box. So, if information about a particular message seems to be missing or wrong, we have no idea about that. And the same kind of goes for who sent the message to us or a way to contact whomever. If that info is not in the message itself, it won't be there. As crazy as it sounds, we do not have complete contact information about most of the folks on Partyline or in the parks. We rely on you to keep us up to date. We apologize for any misinformation now and in the future. :)

DISCUSSION GROUP

The Discussion Group meets every Friday in the Library at the Clubhouse from 10AM-11:30. The Friday Discussion Group is comprised of 8-12 individuals who enjoy getting together to learn from each other through discussion on a variety of topics. Sometimes we discuss philosophical ideas, and sometimes we discuss items in the news. We are open to whatever topics may be of interest to members at any given week. We do our best to let each person discuss their opinions and views without interruption, and we enjoy discussing ideas that are different than our own. The main purpose of the group is hearing views that differ from our own and learning through discussion. We approach every view as a legitimate opinion without judgement as best we can. The topic for any given Friday is sent out 5-6 days before, so we all can individually think about it and prepare for a meaningful, intelligent discussion. We do not try to reach consensus, just learn and we carefully listen to understand whatever anyone is saying.... whether we agree. We agreeably disagree as needed. Through listening and discussion, we hope to expand our understanding of living in this crazy world.

Come join us!
